

HDMI and DVI Cables

The Extron HDMI and DVI Cables offer interconnection between HDMI and DVI devices. They are available in two styles: **HDMI male to HDMI male**, **HDMI male to DVI male**, and in various lengths from 3' to 50'. They are designed to pass through all the HDTV and computer signals of a single link HDMI and DVI, including digital video, digital audio, EDID (DCC), HPD, CEC, and HDCP. All the contact pins are gold plated for high performance and reliability.

NOTE

Pin 13 of the HDMI and pin 8 of the DVI are connected for passing CEC signals.

HDMI to DVI Adapters

The Extron HDMI to DVI adapters offer interconnection between HDMI and DVI cables and devices. They are designed to pass through all the HDTV and computer signals of a single link HDMI and DVI, including digital video, digital audio, EDID (DCC), HPD, CEC, and HDCP. All the contact pins are gold plated for high performance and reliability; the male side has thumbnails, and the female side has hex nuts for attachment.

NOTE

Pin 13 of the HDMI and pin 8 of the DVI are connected for passing CEC signals.
